

Simplicity, reliability, proven performance and energy efficiency.

Improved airflow and cooling capacity keep chicks cool and comfortable

- New fan cart delivers uniform airflow allowing the hatch to progress naturally while eliminating chick down build-up on copper coils, maximizing chick comfort for an optimal hatch
- High-capacity cooling coils maintain the appropriate temperature inside the hatcher baskets

Flexibility and low maintenance

- Standard smooth fiberglass walls and roll out fan cart facilitate ease of cleaning
- Limited moving parts simplify the CVH maintenance requirements
- Capacity of 15,000 eggs

Control options

- User-friendly Genesis M (GeM) control with PID temperature control and bright LED indicator lights
- Access any feature of the hatcher through the touch screen of the intuitive and easy-to-use Genesis IV Control
