

GeMeric 3

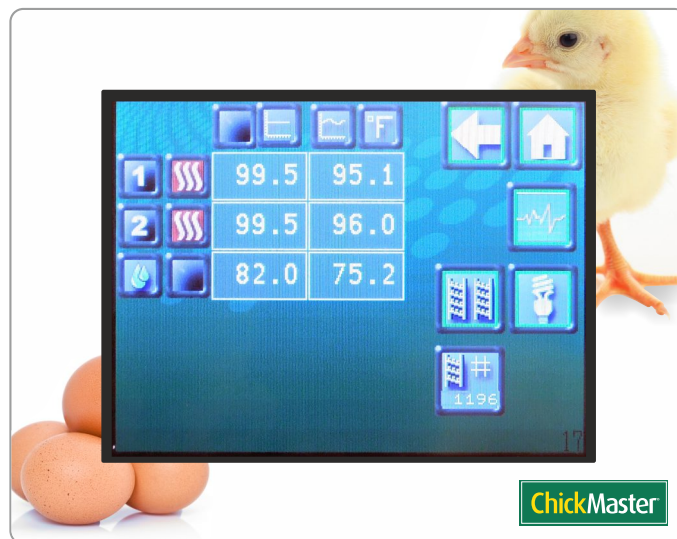

The Best Control Upgrade Solution Yet!

Controls are the heart of every setter and hatcher. As technology changes, controls can improve the results and efficiency of your setters and hatchers. The GeMeric 3 is the newest development to upgrade your single and two-zone setters and hatchers.

The GeMeric 3 has many improvements over its successful GeMeric predecessors:

- Colour touchscreen with easier navigation of icons and better visual display
- Easy installation into existing control boxes, or wall mounted
- Improved temperature control with dual PID loops for heating & cooling each zone
- Connection to Maestro and Advisor management control software
- Alarm delay time and on-screen graphing
- Includes fan and turn failure detection

The GeMeric 3 is designed for Classic setters, CVH hatchers, and also single and two-zone incubators of many competitors. It is the latest and best upgrade for any hatchery wanting greater control and valuable information to keep your *Hatchery in Harmony*.

- Ten stage program setting for superior hatcher management
- Works in conjunction with OrAlarm for even more security and remote communication
- Controls modulating damper (available upgrade kit)
- All sensor-based to eliminate controls with mercury thermostats
- Greater security features/password protected
- Available fumigation control feature

GeMeric 3 installed in existing control cabinet
