

# Genesis M (GeM)

Designed for multi-stage Classic setters and related hatchers, the GeM control is user-friendly and economical.

Featuring digital temperature and humidity displays with Allen-Bradley or Omron components.

- True PID maintains temperatures in a very narrow band to maintain an optimal incubation environment
- Digital displays of both set and actual points for front and rear temperature and humidity
- Easy to read indicator lights display current status of critical functions
- Universal symbols are easily understood, regardless of language
- Offers two choices of damper control - Manual or Automatic
- Turning counter display

Available in vertical or horizontal format
