

OrAlarm

Hatchery Alarm Module

Increase security in your hatchery by adding the Hatchery Alarm OrAlarm Module to the Maestro Communication System

- Connects the user to the hatchery at all times
- Uses a dialer and a phone line connection to notify the user for alarms as configured by the user
- Centrally located 'always on' remote screen increases security and overall awareness of the alarms
- If Maestro has internet connection, the user can access the OrAlarm
- OrAlarm is Maestro's safety net - it sends a notification if Maestro becomes disabled
- Monitors the operative status of peripheral systems like water chillers, pumps and air handling units
- OrAlarm can be added to Maestro at any time
